

KARINA ROCHA FERREIRA

Software Test Engineer | QA | Test Automation

Manaus, AM, Brazil • karinarochaf.97@gmail.com • LinkedIn • GitHub

PROFILE

Software Test Engineer with hands-on experience in Android validation, quality processes, defect investigation and test execution. I enjoy understanding how systems behave, finding better ways to organize testing, and improving workflows under tight deadlines. Currently expanding my automation skills with Python, REST APIs and Playwright toward SDET.

PROFESSIONAL EXPERIENCE

SIDIA | Manaus, AM

Mid-Level Software Test Engineer

Jun 2024 - Present

- Execute and analyze complex Android validation across manual and automated test suites, including CTS, GTS, CTS-GSI, VTS and STS.
- Investigate failures, environment/configuration issues and quality risks, supporting reliable decisions under tight delivery timelines.
- Design and document clearer testing flows, expected execution times, parallelization strategies and resource allocation to improve visibility and consistency.
- Identify bottlenecks and opportunities to optimize workflows, reduce avoidable execution time and anticipate process problems.
- Continue developing automation skills with Python, REST APIs, Playwright, CI/CD, Docker and related SDET practices.

Junior Software Test Engineer

Dec 2021 - Jun 2024

- Expanded ownership of Android testing, defect analysis and test processes across increasingly complex validation requests.
- Worked with manual and automated validation, results analysis, retries and technical troubleshooting across test environments.

Technician Test Developer

Jan 2021 - Dec 2021

- Started in software quality through Android validation, manual testing, test execution and defect investigation.
- Built practical knowledge of device configuration, test environments and quality workflows.

EARLIER EXPERIENCE

Front-End Intern - Instituto Transire

Oct 2020 - Jan 2021

- Worked extensively with Angular, JavaScript, HTML and CSS, including responsive interfaces and REST API integration.

IT Support Intern - Tribunal Regional Eleitoral do Amazonas

Nov 2019 - Sep 2020

- Provided technical support, troubleshooting, user assistance and hardware/software setup.

Geoprocessing & BI Intern - SEMED

Nov 2018 - Feb 2020

- Worked with geoprocessing, business intelligence and data analysis to support operational and information needs.

EDUCATION & CERTIFICATION

Postgraduate Program - Artificial Intelligence & Machine Learning, Anhanguera

Completed Jun 2026

Bachelor's Degree - Computer Engineering, UNINORTE

ISTQB Certified Tester Foundation Level (CTFL)

SKILLS

Testing & Quality: Android Testing, Manual Testing, Test Automation, REST API Testing, Postman, defect investigation, test process improvement

Automation & Development: Python, Playwright, JavaScript, Angular, React, HTML, CSS

Tools & Infrastructure: Linux, Git/GitHub, Jenkins, Docker, Azure DevOps

QA & Agile: Jira, Mantis, Scrum, Kanban

AI-Assisted Tools: ChatGPT, GitHub Copilot, Gemini

Languages: Portuguese (native), English (advanced professional use)
